INTRODUCTION

Tabesh University officially began its academic and research activities on December 2009 ,12, after receiving a license from the Ministry of Higher Education. It first opened in Kabul at the Lab-e-Jar Intersection.

In 2012, the university expanded by opening a second campus in Maidan Wardak Province with programs in Economics, Law, and Political Science. Later, in 2016, after a successful evaluation by the Ministry of Higher Education, the institute was upgraded to a university.

In 2023, the university moved to Jalalabad City, Nangarhar Province. Currently, it offers higher education through four faculties: Computer Science, Economics, Sharia, and Law & Political Science. The university is staffed by qualified faculty with Master's and PhD degrees, and plans to introduce more programs in the future.

Tabesh University also publishes a national academic journal and shares its activities through its official website.

VISION:

Tabesh University aspires to be a nationally and regionally recognized institution of higher education, committed to developing qualified academic and professional personnel through standards-based teaching, research, and quality higher education.

MISSION:

Tabesh University is committed to developing qualified academic and professional cadres and conducting scientific research through the effective utilization of available resources and modern technology, while responding to the needs of society.

CORE VALUES:

- Respect for Islamic values
- Commitment to national interests
- Accountability and responsibility
- Respect for different opinions
- Supportive learning environment
- Academic freedom
- Fair and professional behavior

STRATEGIC OBJECTIVES:

The university focuses on:

- Improving leadership and management systems
- Developing staff capacity
- Expanding academic programs
- Regularly updating curricula
- Promoting research and innovation
- Building national and international partnerships
- Ensuring quality and accreditation
- Strengthening IT and e-learning systems
- Increasing financial resources
- Improving infrastructure

LEADERSHIP AND GOVERNANCE:

The university is led by a Board of Trustees. The board includes experienced professionals. It makes major decisions and ensures transparency. The board is chaired by Dr. Khair Mohammad Momand.

The University Chancellor manages academic and administrative affairs. He is supported by four vice-chancellors. They are responsible for Academic Affairs, Research, Student Affairs, and Finance & Administration.

ACADEMIC PROGRAMS:

1. Business Administration
2. Artificial Intelligence
3. Information Technology
4. Fiqh and Law
5. Law
6. Political Science and International Relations

All programs follow national and international standards and are regularly updated.

TEACHING METHODS:

The university is led by a Board of Trustees. The board includes experienced professionals. It makes major decisions and ensures transparency. The board is chaired by Dr. Khair Mohammad Momand.

The University Chancellor manages academic and administrative affairs. He is supported by four vice-chancellors. They are responsible for Academic Affairs, Research, Student Affairs, and Finance & Administration.

QUALITY ASSURANCE:

Tabesh University works closely with the Ministry of Higher Education to maintain quality standards. It has completed the first stage of accreditation and continues working toward full accreditation.

FACULTY MEMBERS:

The university has a team of qualified lecturers, including PhD and Master's degree holders, supported by permanent and contractual staff.

STUDENTS AND SERVICES:

Currently, the university has over 1,100 students and has graduated nearly 4,000 students. It provides classrooms, libraries, labs, counseling services, and other facilities to support student learning.

RESEARCH AND INNOVATION:

The university conducts research to address social issues and has published several national and international research papers.

PARTNERSHIPS AND SOCIAL RESPONSIBILITY:

Tabesh University collaborates with national and international institutions. It also contributes to society through workshops, seminars, and community programs.

INFRASTRUCTURE AND TECHNOLOGY:

The university offers modern facilities, including smart classrooms, digital libraries, and high-speed internet. Its systems support both academic and administrative activities.

ACHIEVEMENTS AND FUTURE PLANS:

The university has improved in education quality, research, and technology. It plans to expand programs, strengthen partnerships, and achieve full accreditation.
